RULING ON ENTITLEMENT¹

On December 8, 2020, Nicole Bingham filed a petition for compensation under the National Vaccine Injury Compensation Program, 42 U.S.C. §300aa-10, *et seq.*² (the “Vaccine Act”). Petitioner alleges that she suffered a right shoulder injury related to vaccine administration (“SIRVA”) caused by an influenza (“flu”) vaccine administered on September 26, 2019. Petition at 1. Petitioner further alleges that the vaccine was administered within the United States, that she suffered the effects of her injury for six months or more, and that there has been no settlement or award for her injury. Petition at 5-6. The case was assigned to the Special Processing Unit of the Office of Special Masters.

If, upon review, I agree that the identified material fits within this definition, I will redact such material from public access.

On March 18, 2022, Respondent filed his Rule 4(c) report in which he concedes that Petitioner is entitled to compensation in this case. Respondent's Rule 4(c) Report Recommending Compensation and Proffer of Compensation at 1. Specifically, Respondent has concluded that Petitioner suffered a SIRVA of the right shoulder as defined by the Vaccine Injury Table. *Id.* at 5. Respondent further agrees that Petitioner has met the legal prerequisites for the compensation under the Vaccine Act. *Id.*

In view of Respondent's position and the evidence of record, I find that Petitioner is entitled to compensation.

IT IS SO ORDERED.
